

Venue Policy

1. Venue Assignment

Each event should be assigned to an appropriate venue before the event is conducted. The selected venue should have sufficient capacity for the planned participants.

2. Venue Availability

A venue must be available for the requested event date and time before it is assigned to an event.

3. Venue Capacity

The number of registered or expected participants should not exceed the capacity of the assigned venue.

4. Venue Information

Venue information should include the venue name, capacity, and location so that organizers and participants can identify the event location.

5. Venue Rules

Participants must follow the instructions and rules provided by the event organizer and venue management during the event.

6. Venue Changes

If the assigned venue changes, updated venue information should be communicated to the affected participants.
